5 Certain verbal errors in the proposed by-laws have been corrected.

6 A new rule has been inserted requiring every public vaccinator to reside in his or her own circle.

7 The rate of fee chargeable by public vaccinators vaccinating outside the depôts has not been fixed.

8 It is a question whether a single register will do for all the purposes specified in by-law no 9 (include the Animal, Sanitation)

9 Clause By-law no 7 requires that a badge shall be worn by every public vaccinator. This does not seem to be necessary. (may be withdrawn)

unless he is a medical man are practically useless They are only slightly more useful when filled in by a vaccinator who is not a medical man They should be filled in by a medical man after careful personal examination of each individual Under these conditions it is impossible for the householder to send in the forms duly filled in in so short a period as 4 days. The proper procedure would be to engage three temporary Hospital Assistants for a month to carry on this duty by going from house to house.

The Registers should be kept at the circle Depot and not with the Superintendent of Vaccination (Health Officer)

Clerical help and peons will be necessary for each Depot

Two distinct Registers will have to be kept

i. One showing every house with names of the unprotected - and space for the addition from time to time of fresh "unprotected" with a column for the date of vaccination when performed

ii. The ordinary vaccination Register where all vaccinations are entered immediately they are performed. As soon as the vaccination is performed, and entered in this Register, the name should be ticked off in Register No i and the date of vaccination entered

The Hospital Assistant should be the circle Superintendent of Vaccination for the circle in which his Dispensary is the Depot The vaccinators should keep up Registers i & ii under his supervision, and he should forward a return of work done weekly, to the Superintendent of Vaccination in the ordinary vaccination

Dear sir,

Some months ago the staff of this Hospital --- consented to the establishment of a Govt Vaccn Depot here for women & children, the vaccination being done by one of the Govt Female vaccinators They are willing to continue this arrangement but would be glad to have the choice of ~~of~~ the --- vaccinator, so that supervision & control of her work here may be more satisfactory than it has been Otherwise, it has --- proved difficult to secure regular and punctual attendance of the Female vaccinator

The Hospital staff cannot undertake to vaccinate personally
